## Ready to get visible?

Hi, I'm Zoe. I've written this guide to help you get more visible with your bookkeeping practice.

If you're thinking it's time to make an impact, time to get in front of your ideal client, here's a checklist you can use to make sure you've visited everything that matters.

#### Why does it matter?

Being visible is important if you're going to attract your ideal client. They need to be able to find you AND they need to know from their first interaction with you, that you are the professional bookkeeper for them, and that you know their business, you know their industry, you know what matters to them.

I've put this checklist together to give you a list of what you should visit to be sure your business stands out to your ideal client, that you're consistent on your brand and your message.

I'd love to stay in touch, please come and say hi @\_zoewhitman
